PROJECTS

Tesla Road Trip — PHP, HTML, CSS

Tesla Road Trip(TRT) is an application for Tesla Owners who love road trips and want to utilize the Tesla supercharger network to cruise through the countryside in arguably the greatest car ever!

EXPERIENCE

With Love Market & Cafe, Los Angeles — *Facilities Manager*

March 2016 - June 2017

·Inspect facilities to determine the need for repairs and to ensure compliance with government health and safety regulations

· Combine leadership and management skills to optimize vendor relations - quickly resolve problems that hinder progress or create disputes

· Exceed employer expectations with "above and beyond" focus on guest satisfaction and retention, strict attention to quality service and consistent application of extra effort

· Streamline catering and special events. Supervise and train staff of 6. Oversee scheduling, inventory management, and menu development. Maintain daily sales records.

Dealer Tire, Beverly Hills, CA — *Technician*

2008 - 2012

Inspect, test and diagnose vehicles. Complete preventive maintenance such as engine flushes, engine tune-ups, oil changes, tire rotation and wheel balance, replace filters. Process warranty items and ship to manufacturer.

EDUCATION

Coding Dojo, Burbank, CA

2017 - 2018

Intensive 14 week, full-time web development training program, gaining over 1000 hours of coding experience including the introduction, implementation, and iteration of various web projects over 3 full stacks. Daily work on computing theory and algorithms.
